Ambassador of SDG 1

PDr. Hela Ben Hassine Khalladi
Assistant Professor of Economics

Dr. Hela ben Hassine Khalladi

Prof. Moez CHAFRA

The Brain Project

Through its targeted mobility scholarships for Master's and Ph.D. candidates, this initiative addresses core drivers of poverty in Sub-Saharan Africa by developing high-level professional expertise.

The program creates pathways to sustainable livelihoods and economic mobility while building regional capacity in key development sectors. By enabling advanced education and cross-border knowledge transfer, it generates lasting impact through innovation-led growth and reduced socioeconomic disparities across the region.

AFRIDI Project: Advancing Scientific Excellence in Africa

Focused on the fields of Natural and Environmental Sciences, the AFRIDI Project establishes comprehensive scholarship programs enabling Sub-Saharan African students to pursue advanced academic studies and research.

This initiative cultivates regional cooperation and academic distinction while developing specialized professionals equipped to confront critical environmental and sustainability challenges. Furthermore, the project strengthens institutional capacity and promotes academic exchange, contributing substantially to the advancement of higher education systems and sustainable development objectives across the region.

The DigiAfrica Project

The DigiAfrica project addresses digital inequality by strengthening digital literacy and technological capabilities in geographically isolated universities across Africa. Through improved access to digital education and skills development, the initiative creates pathways to economic opportunity while supporting broader poverty reduction goals.

The program provides individuals with essential digital tools to enhance their professional capacities and participate in sustainable economic development. This undertaking reflects the institution's ongoing commitment to educational advancement, digital transformation, and inclusive development throughout the African continent.
